

INTEGRATE HIGH-QUALITY SUPPLIER CHAIN
ONE-TO-ONE CUSTOMIZATION EXPERTS

TOP TECH ELEVATOR SDN. BHD.

COMPANY PROFILE

TOP TECH ELEVATOR SDN.BHD. has been committed to providing customers with high- quality resources and personalized customization since its establishment.The company has gathered more than 50 high-quality cooperative units across the country to provide domestic and foreign customers with cost-effective complete machines and accessories.In the field of household elevators,our company cooperates with domestic &overseas professional design teams and integrates high-quality resources to provide customers with various customized products and services (including OEM packaging services)

COMPREHENSIVE SAFETY CONFIGURATION

Kids Mode

Smart child lock and smart child border technology effectively prevent young children from playing with the elevator

ARD is standard on all mode

Ensure that the elevator continues to operate after power failure and avoid situations such as people being trapped

Diversified elevator calls

Contactless elevator call, more convenient travel

Smart light curtain

Millisecond response, non-contact protection, and prevention of pinching

Age-friendly design

Automatic abnormality recognition function and remote video make it safer for the elderly to take the elevator

Cloud Monitoring Platform

Directly access the IoT platform and remotely monitor the elevator operation status in real time

Power outage emergency

Automatic leveling in case of power failure, running at low speed to the nearest floor for leveling and releasing people

Seamless communication

Standard reserved local telephone interface, one-click calling of designated contacts

MC-V8 SMALL SHAFT TRACTION TYPE ALUMINUM ALLOY SIGHTSEEING VILLA LADDER

Classic Re-create the classic Solution to create a 1 square meter space

The MC-V8 series traction home elevator adopts the classic electric drive structure, which has the advantages of being sensitive and convenient, running smoothly and comfortably, energy-saving and environmentally friendly. The advanced machine room-less structure has a small footprint and low civil engineering requirements, which can meet the requirements of different types of villa structures. On this basis, it uses innovative technology to enable smart life and create an unprecedented life experience
